

TENZE BEAT

A red ECG (heart rate) line graphic is positioned horizontally across the center of the image. The line starts with a flat baseline on the left, then rises to a small peak, dips slightly, rises to a much taller, sharp peak, dips below the baseline, and then rises to another smaller peak before returning to a flat baseline on the right. The text "TENZE BEAT" is superimposed on this line, with the word "TENZE" on the left and "BEAT" on the right, separated by the central peak of the ECG line.
